

Bhutan Coronavirus Update

Date – 28th June 2021

BHUTAN

Majority of the infected people are already recovered with only 304 cases remaining active. Even Bhutan's well-functioning epidemiological system faces a challenge from the Delta variation of coronavirus. Regardless, the government has been effective in containing the virus so far.

Bhutan will only reopen after successful vaccination which is currently underway. Government is aggressively trying to get these shots and is in touch with many countries.

According to the latest health ministry estimates, the number of coronavirus cases in Bhutan is now as follows.

Overall Data (Updated on 28th June)

Total Cases	Infected	Recovered	Deaths
2,052	304	1,747	1
