

Coronavirus Update

Date – 28th July 2021

BHUTAN

The Himalayan kingdom of Bhutan has inoculated most of its eligible population with second doses of COVID-19 vaccinations in just a week, in a speedy rollout hailed by UNICEF on Monday as a "success story" for international donations.

More than 454,000 shots were administered over the past week — which equates to just over 85 per cent of the eligible adult population.

UNICEF's Bhutan representative, Will Parks, hailed the ambitious vaccination drive as a "great success story for Bhutan".

The Government has received ample support from other countries such as EU, USA & China sending vaccinations hence able to successfully vaccinate the country.

The country is reviewing the process to reopen for tourism in next few months.

According to the latest health ministry, the number of Coronavirus cases in Bhutan is now as follows.

Overall Data (Updated on 27th July)

Total Cases	Infected	Recovered	Deaths
2,489	237	2,250	2
