

India Update over Covid Scenario

Date – 11th December 2020

INDIA

India's present tally has moved to 9767371 which includes 372293 active cases, 9253306 patients who have recovered (*with a recovery rate of 94.66%*) and 141772 deaths.

With UK becoming the first country to approve the Pfizer/BioNTech vaccine, giving the much-needed respite & hope is on the horizon. India too, is making rapid progress in clinical trials of the indigenously developed vaccine across 25 labs being set up in the country under the direct supervision of Prime Minister of India.

After creating successfully the travel bubbles to a large number of nations as advised in our last update the tourism ministry is actively considering opening up of the VISA's to all foreign nationals to visit India which will be subject strict following of all health & safety protocols and COVID -19 tests prior to leaving their country and upon arrival in India.

With arrival of winters, Domestic tourism in country is all set and is heading for mountains and other lovely places to celebrate X-MAS and New Year with their love ones. Domestic flights have been increased from 70% to 80% of pre COVID levels from 03 December.

Will keep you updated on the same. For the latest updates you may visit <https://www.mygov.in/covid-19>
