<u>Coronavirus Update</u>

Date – 18 August 2021

INDIA

India on Thursday reported 36,401 new Covid-19 cases in the last 24 hrs. The active caseload also registered a decline as of today and the total caseload climbed to 364,129. The active caseloads constitute 1.13 per cent of total cases, as per the bulletin released by the health ministry.

Meanwhile, India's cumulative COVID vaccination coverage has exceeded 560 million of landmark.

The government is officially working on a "calibrated resumption of tourist visas on a country-specific basis" aiming to reopen the country for tourism as soon as possible. This news offers a ray of hope for the tourism industry, which has been working hard to rebuild since international travel was stopped indefinitely in March 2020.

Domestic tourism is at boom in the county and all states , major hotels and monuments are open for domestic travel.

The number of corona virus cases in India is now as follows:

Overall Data *(Updated on 19th August)*

Total Cases	Infected	Recovered	Deaths
32,322,258	364,129	31,525,080	433,049
