

## Coronavirus Update

**Date – 29<sup>th</sup> November 2021**

### **NEPAL**

Nepal's coronavirus caseload reached 820,878, with 154 more persons testing positive in the last 24 hours.

Nepal's immunization programme is moving at a breakneck pace; 6.49 million individuals have been fully immunized to date. Nepal is beefing up its healthcare system and stockpiling vaccines in preparation for any future wave (if it happens).

Clients who have been fully vaccinated are not required to follow any quarantine restrictions. VISA on arrival has been resumed for the convenience of passengers. For fully immunized visitors, all tourist attractions are open.

Kathmandu has relaxed the health protocol for arrivals with effect. Here's the [link](#) to understand Nepal Entry Protocol and process.

The number of corona virus cases in Nepal is now as follows:

### **Overall Data (Updated on 29<sup>th</sup> November)**

<b>Total Cases</b>	<b>Infected</b>	<b>Recovered</b>	<b>Deaths</b>
820,878	6966	802,389	11,523
