

## Coronavirus Update

**Date – 21<sup>st</sup> February 2021**

### **SRI LANKA**

The coronavirus case count in Srilanka now stands at 78420 cases, with 6167 active cases, 71823 recovered and 430 deaths are reported according to latest health ministry figures.

Although Sri Lanka has started the vaccine program, the number of cases per day has increased. Earlier it was around 700 cases but now its 900 cases average per day. The new variant (B117 UK) of the virus has also been found in the country and the government is taking relevant measures to avoid the spread.

As per the latest guidelines given by the tourist development Sri Lanka is open for travelers as of now. Please refer following link for more details.
