

Coronavirus Update

Date – 23rd July 2020

SRI LANKA

The coronavirus case count in Sri Lanka now stands at 2752 cases, with 2077 recovered according to latest health ministry figures. 11 deaths are reported due to the virus. The country lifted its COVID-19 lockdown in late June after declaring there was no longer any community spread of the virus. But sudden rise of cases last week, had led Government to delay its plan of reopening the international airports from 01st August. The International airport, which authorities had planned to reopen on August 1, would remain closed till further notice.

Meanwhile Srilanka Tourism has also launched “Safety and Hygiene Protocol” and the same can be shared on request.

We continue to monitor the situation and will update you as and when required. For the latest updates you may visit <https://srilanka.travel/covid19>
