

Coronavirus Update

Date – 30th January 2020

SRILANKA

Amid the spread of a new SARS-like virus, novel coronavirus, which has already killed 17 and infected hundreds of people in the neighboring country China, the Sri Lankan government strengthened surveillance at the points of entry as part of precautionary measures to screen pneumonia caused by the new coronavirus that was first detected in Wuhan, Hubei Province in China.

There is no spread of virus in Nepal and situation is very much safe, under control and normal for travel.

We continue to monitor the situation and will update you as and when required.
